

EFP - Epicor Financial Planner

EFP is a complete system for Financial Budgeting and is expandable to support a multitude of complex business scenarios.

EFP software is currently out-of-the-box working with the following Epicor ERP systems:

- **Epicor ERP** (Epicor 9 and Epicor 10)
- **iScala**
- **Epicor Enterprise (E7)**

EFP editions include both SaaS versions and versions for on-premise install. To find the appropriate documentation - select the one relevant to you

- [EFP - SaaS versions](#)
- [EFP - On-Premise versions](#)
